

TAYLOR BROWN is a strong voice for...

Creating Jobs

With environmentally responsible development of our natural resources we can grow good jobs and our energy supply. Taylor does not support right-to-work laws for Montana.

Smaller State Government

We can do better than a 40% increase in state spending and 1,200 new state employees in four years. Let's get control of the checkbook.

Lower Taxes

Montana taxpayers are being overcharged! We need to demand permanent property tax relief and lower business equipment taxes.

Future of Education

As we develop a stronger economy, we need to invest more in education, research, and technology so our kids will be able to find jobs in a workforce that is competitive tomorrow.

With a lifetime in agriculture, and 25 years running a successful family business, Taylor Brown is an honest and trusted leader. Well known as a volunteer for rural youth and communities, Taylor is a nationally-recognized agricultural broadcaster serving our state as the owner of the Northern Broadcasting System.

A strong supporter of education, he has been deeply involved in programs like FFA, 4-H, Montana Range Days and the MSU-Steer-a-Year Program. For the past four years, Taylor has personally headed up the volunteer effort to raise \$16 million in donations to build the first-ever Animal and Range Science building at Montana State University.

Proud of his rural Eastern Montana roots, Taylor Brown is a true champion for the families and small businesses that call this district home!
